Allison Howard

SOFTWARE ENGINEER

505 E Santa Clara St, San Jose CA, 95112 Unit 509 | (303) 582-4664 | cometallih@gmail.com | www.linkedin.com/in/allison-2a0099210

Professional Profile

Majoring in Business with a concentration in Management Information Systems - looking to invest my time in companies that can provide knowledge in return. I believe my fast learning capabilities, curiosity, and relevant studies make me the perfect fit for this position. Awarded multiple honors based on merits and expected to graduate with a B.S. in MIS from SJSU in May of 2024.

RELATIVE COURSEWORK

INTRODUCTION TO BUSINESS PROGRAMMING

- Analysis of business problems to design and implement the software component of an information system. Emphasis on structured design and programming. Focuses on business-oriented applications such as Python.
    - Through this course I worked on projects both individually and in groups to build code to program things such as: store inventory, grocery lists, grocery receipts, and shopping carts.

BUSINESS PRODUCTIVITY TOOLS

- Fundamentals of spreadsheet software through individual assignments. This course teaches the use of spreadsheet tools to analyze business problems. Group collaboration tools are used to be effective with working in teams and giving presentations in business school classes and future careers.

LEGAL ENVIRONMENT OF BUSINESS

- Law and ethics as it applies to business organizations. This course touches on business knowledge, communication, ethical awareness, leadership, teams, diversity, critical thinking, and innovation.
