*A responsible, self-driven and high achieving college student looking to further professional experience in the management information systems and software product management field through internships.*

## Education

---

B.S. in Management Information Systems with Minor in Computer Science

**San Jose State University**

Graduating in May 2025

## Skills

---

Hard Skills: Computer Programming in Python, C#, Java

Soft Skills: Communication, Writing, Leadership and Planning, Excellent Teamwork

## Relevant Courses

---

Principles of Macroeconomics/Microeconomics, Introduction to Data Structures, Introduction to Programming

## Experience

---

**Internship - BlackRock Inc**

**June 2019 - August 2019**

Interned at BlackRock Inc, San Francisco in Summer 2019. This was a 7 week of corporate internship with hands-on experience in learning computer programming using Python. As part of the final project, I built a web site for homeless people to easily find free shelter, food, medical help and clothing. This web site was built using Python and did use APIs from Google Maps to locate the free resources around the vicinity.

## Extra-curricular Activities

---

**Women in Business, SJSU**

Member

**August 2023 - Present**

**Sahaara Dance Club, SJSU**

President

**May 2022 - May 2023**

Involved in operating the club, fund-raising, training and managing the logistics of competition participations.

**Livermore Youth Advisory Commission**

**2019-2021**

Council member of the Livermore Youth Advisory Commission. Roles and responsibilities include reviewing proposals for youth engagements in the Livermore city and organizing city youth events.
