WORK EXPERIENCE

Beauty Advisor

Sephora | 2024

- Collaborated with my team and brand representatives to create effective sales goals, plans, pitches, and use promotional materials to sell to customers.
- Identified trends and consumer preferences, educating clients about products and services
- Collaborated with team members to achieve daily objectives

PROJECTS

Project Manager in Consulting Project

Women in Business Organization | 2025

- Worked as a team in a consulting project for a small business where we worked to enhance the business's value. My role as a project manager was to communicate and strategize a plan of action for the business.
- Conducted data collection and analysis of business processes, customer feedback, and market trends to design the business action plan and presented final recommendations to business owners.

Customer Service Chatbot- BUS4-92 Introduction to Business

Programming

- Collaborated in a semester-long team project using Python to design and code a customer service chatbot able to analyze interactive data and provide solutions for customers
- Conducted user testing and integrated feedback to our final project
- Presented final project to peers, translating our technical solutions into business value

Employee Development Project- BUS3-160 Fundamentals of

Management and Organizational Behavior

- Worked as a team for 5 months to develop actionable solutions for employee development by analyzing pain points in workflow, communication, and training gaps for different business scenarios
- Used MIS concepts to collect, analyze and visualize business data, helping our team identify areas for improvement
- Presented final project findings to the class, using clear storytelling with data
