Management - Project Management, Event Planning, Team Building, Reporting.

PROJECTS

Property Owner Data Analysis tool for AirBNB

March 2022 - June 2022

Analyze AirBNB property data to maximize value proposition for the property owners.

- Collected data using AirBNB public API in the consumable format of .csv and .xlxs.
- Created a Python database that calculates statistical means, and ranges, and performs other mathematical functions on large AirBNB databases.
- The analysis was used to determine the number of amenities featured by AirBNB properties and the correlation to their profitability.
- Sorted, Transformed, and Analyzed the property features against rent received.
- Created a dashboard and reports to provide information on features vs. rent and the most valuable factors for AirBNB properties.

WORK EXPERIENCE

Menlo Park Police Department | Menlo Park, CA

Police Explorer Sergeant

January 2021 to Present

I participate in and drive crowd control and traffic control for community events. As a sergeant, my additional responsibilities include scheduling meetings, planning events, fundraising, and helping new Explorers learn.

Palo Alto Police Department | Palo Alto, CA

Police Explorer

August 2018 to June 2020

During my time as a Police Explorer in Palo Alto, I learned discipline, leadership, and mentorship. I graduated from the 100-Hour Police Explorer Academy, received training in communication skills, and leadership skills, and learned the basics of police duties such as searching buildings, California laws, and performing crowd and traffic control. I planned community events as well as used direct communication in order to resolve urgent issues.

EDUCATION

San Jose State University | San Jose, CA

August 2022 - June 2025

Degree/Major: Bachelor of Business Administration/Management Information Systems

August 2022 - Present

Learning to solve business problems with the use of technology. Passionate about Data Science, AI/ML.

Foothill Middle College | Los Altos, CA

Student: Grades 11 and 12

August 2020 - June 2022

Learned and excelled in areas of Information Systems, Math, Database Management, and Programming. The Middle College experience helped me to get ready for college and be organized.

Palo Alto High School | Palo Alto, CA

Student: Grades 9 through 12

August 2018 to June 2022

During my freshman and sophomore years at Palo Alto High School, I participated in the Model United Nations (MUN) club and the Economics club and participated in many public speaking events related to economics.
