## EXPERIENCE

### Hayward Quartz, California — QC Intern

May 2020 - July 2020

Worked under the QC department as an intern learning how to check for any issue with quartz used as circuits for various machines. Learned how to be proficient at excel, learned how to write basic scripts in python.

## Projects

### Potential Business within campus

August 2021 - December 2021

Worked for four months creating a business proposal of a moving company designed around college students as the main market. Targeting Freshman or Sophomores that have to either move in or out of campus as there usually is a big market that requires such services. Created the idea for the project and worked on the short/long term plans of the company.

### Worked on a system to simulate a business

August 2021 - December 2021

Created a system through Salesforce for a hypothetical startup that is very similar to Hello Fresh/Blue Apron. Designed the UX and followed a guide on how to create a functioning backend.

## EDUCATION

### Ohlone College, California — Associate Degree of Science

May 2019 - May 2021

Spent two years in CC working for a Business Associate degree with some focus in technology.

### San Jose State University, California — Current Student

August 2021 - Current

Currently a student studying toward a MIS degree.

## SKILLS

Proficient at excel, entry level at Python, can make basic scripts.

## LANGUAGES

English, Vietnamese
